About us

Birsa Coolers is an established brand of air coolers in the eastern part of India, and it is known for producing high-quality metal and plastic air coolers. A superior cooling performance is ensured by the combination of unique design and high-quality electrical components that are within your budget. We have a wide selection of cooler models with elegant designs and appealing powder coatings. We have many different types of coolers in various sizes to meet your daily needs. We are aggressively expanding our presence in underserved states and looking for a partnership with established distributors and dealers to create a pan-India footprint.
